

U.S. Rubber Recycling, Inc.

Survivor™ SportFloor Systems Rolls/Tiles Warranty

LIMITED LIFETIME WARRANTY

1. U.S. Rubber's Survivor brand rolled/tiled rubber flooring is guaranteed and warranted to be free of manufacturing defects in material and workmanship for **5 years** from the original date of purchase, by the original purchaser (Warranty Period"). If defects in material and/or workmanship reported during the warranty period US Rubber will repair or replace the product at no cost to the original purchaser.
2. In addition, U.S. Rubber guarantees for **5 years** that the Survivor brand rolled/tiled rubber flooring will not harden, become brittle, chip, crack, tear or exhibit any signs of excessive deterioration except for normal wear and tear, (see high abuse, wear below).
3. U.S. Rubber shall not be responsible for any damage, loss, or claim whatsoever unless the material is installed according to the written instructions provided by U.S. Rubber and used only as intended by U.S. Rubber.
4. This warranty is limited to the repair or replacement of products, which are shown to be defective during the Warranty Period, except at U.S. Rubber's sole discretion a credit may be issued not exceeding the purchase of the product. The owner/purchaser agrees not to advance any claim for any other measure of damage or loss. U.S. Rubber shall not be liable for installation, disassembly, removal, disposal, return shipping, or other similar or related costs, including CONSEQUENTIAL AND INCIDENTAL DAMAGES.
5. THERE IS NO WARRANTY OF MERCHANTABILITY AND/OR FITNESS FOR A PARTICULAR PURPOSE WHICH EXTEND BEYOND THE DESCRIPTION HEREIN.
6. No agent or representative of U.S. Rubber has any express or implied authority to make any further promises, guarantees, or representations not stated herein.

High Abuse/High Wear Areas

Health Clubs/Gyms: This product is not warranted against premature deterioration in specific fitness applications. Always be careful to use rubberized weight plates and dumbbells in free weight areas. Repeated metal to rubber dropping and pounding, or even heavy rubber plates to rubber dropping, will cause premature wear issues. In these particularly high abuse areas such as dumbbell drop areas, free weight and pivot points, a preventative layer of matting may be required to negate premature wear.

Ice Rinks: This product is not warranted against premature deterioration in specific ice rink applications such as penalty boxes, concession stands, changing rooms, entrances and exits to and from the ice rink itself. It is highly recommended that skate guards be worn in such areas to extend the life of the floor.

Installation: Must use a "full-spread" glue down using "SurvivorGrip™", U.S. Rubber's 1-part Urethane Adhesive. Seam taping or random spot gluing is not recommended and may void the warranty.
